Marie Pace, ND, PhD : Holistic Health Practitioner and Naturopathic Doctor

Naturopathy is an eclectic alternative medical system that focuses on natural remedies and the body's vital ability to heal and maintain itself. Naturopathic medicine is based on the belief that the human body has an innate healing ability. Naturopathic doctors teach their patients to use diet, exercise, lifestyle changes and cutting edge natural therapies to enhance their bodies' ability to ward off and combat disease.

Naturopathic physicians craft comprehensive treatment plans that blend the best of modern medical science and traditional natural medical approaches to not only treat disease, but to also restore health.
